the universal sewing machine  
for industrial and professional use***

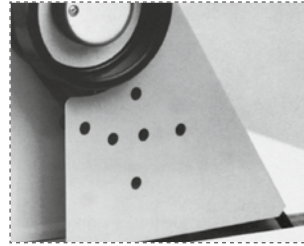

**950**  
**BERNINA<sup>+</sup>**

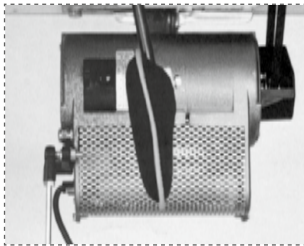

### Utility and decorative stitches

Simply adjust the lever to select the stitch of your choice – even while sewing.

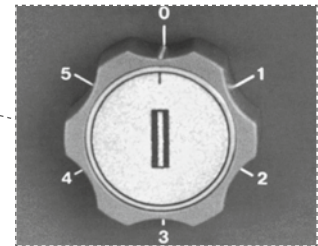

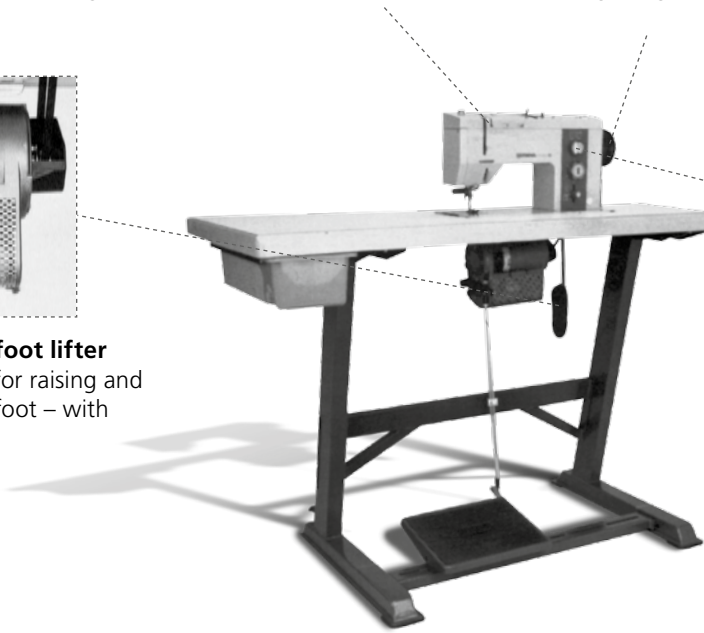

### Belt shield on hand wheel

The belt shield prevents contact with the running belt, thus ensuring you a high degree of safety when sewing.

### Integrated presser foot lifter

Knee-operated lifter for raising and lowering the presser foot – with an up stop position.

### Buttonholes

Turn the dial through 1 to 5 for precision-sewn buttonholes to the length of your choice on any fabric
